Career Objective

Web Developer with hands-on experience in HTML, CSS, JavaScript, React.js, PHP, Node.js, and MySQL. Experienced in developing responsive web applications, RESTful APIs, database-driven solutions, and user-friendly interfaces. Seeking to contribute technical and problem-solving skills to a growth-oriented organization while continuously learning new technologies.

Education

Bachelor of Engineering (B.E.) in Computer Science and Engineering CGPA: 7.71
Adhiparasakthi College of Engineering 2023 – 2027

Internship Experience

Full Stack Web Development Intern — Virtual Tech Services June 2026 – July 2026

- Developed a responsive Interior Design Website using HTML5, CSS3, JavaScript, PHP, and MySQL.
- Implemented PHP-based dynamic functionality and MySQL database operations, including CRUD operations and contact form data management.
- Built responsive user interfaces and client-side form validation, improving usability and cross-device compatibility.

Web Development Intern — InternPe IT Solutions July 2025 – August 2025

- Developed responsive web applications using React.js, Node.js, Express.js, and MongoDB.
- Designed and integrated RESTful APIs and optimized database queries for efficient backend operations.
- Collaborated using GitHub, Jira, and Agile development practices for development, debugging, and deployment.

Projects

Elegand Designers — Interior Designing Website

- Developed a responsive interior design website using HTML5, CSS3, JavaScript, PHP, and MySQL.
- Implemented dynamic pages including Home, About, Portfolio, Services, and Contact using PHP.
- Integrated MySQL database operations to manage contact form data and improve website functionality.

Transforming Healthcare AI — AI-Powered Disease Prediction System

- Developed an AI-powered disease prediction system using Machine Learning and LSTM for disease prediction.
- Built a web-based platform using React.js, Node.js, Express.js, MongoDB, and Gradio for real-time interaction.
- Containerized the application using Docker and created Power BI dashboards for data visualization.

Technical Skills

Programming Languages: Java, Python, JavaScript
Frontend: HTML, CSS, React.js, Responsive Web Design
Backend: Node.js, Express.js, PHP
Databases: MySQL, MongoDB, PostgreSQL
Tools & Technologies: Git, GitHub, VS Code, Docker, Figma, Power BI, WAMP Server

Certifications

- Google AI Essentials — Coursera
- Introduction to Prompt Engineering with GitHub Copilot — Simplilearn
- Introduction to Networks — Cisco Networking Academy
- Switching, Routing and Wireless Essentials — Cisco Networking Academy
- Enterprise Networking, Security and Automation — Cisco Networking Academy
- Full Stack Web Development Internship Completion Certificate — Virtual Tech Services
